INDUSTRY OVERVIEW :

Indian Plastic industry, especially packaging industry is going through a tough phase. Plastic is an eco-friendly product, which is safe guarding the ecological balance of the globe. In our opinion, Plastic is a greatest and major achievement of Human. Right from packaging to Aeronautics, it is used each and everywhere. It is very difficult to imagine a Plastic free world.

The quantum of paper required for packaging needs of the globe is enormous and the world greenery will completely vanish in no time. Similarly, the requirement of Furniture industry and other industries, where Plastics has replaced precious conventional products. Plastic is revolutionary product, which is giving a major economic thrust to the Global

economy. However Negative Publicity and Negative marketing have become major threats to this versatile and eco-friendly product.

The increasing consumption of plastic products because of its applications in several end users and the rapid industrialization is increasing the demand for polymers market in India. Also, the expanding sectors such as health, pharmaceuticals and others are one of the factors that is propelling the market. The petrochemical and chemical industry plays a very significant role for the development of economy in a country.

Polymers market is segmented by type, class, source and applications. In terms of number of application and its products polyethylene is dominating the Indian market and followed by that polyvinyl chloride and polypropylene.

The major factor that is increasing the demand for polymers market in India is the financial conditions and favorable macroeconomic conditions. the rural market is one of the growth frontiers for several polymers manufacturing companies in India that provides a huge market to be tapped.

**MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

The information required in compliance of Regulation 34 (2) (C) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and forming a part of the Director Report for the Year ended 31st March 2019 had given separately in annexure/s.

OVERVIEW OF THE ECONOMY

Indian Plastic industry, especially packaging industry is going through a tough phase. Plastic is an eco-friendly product, which is safe guarding the ecological balance of the globe. In our opinion, Plastic is a greatest and major achievement of Human. Right from packaging to Aeronautics, it is used each and everywhere. It is very difficult to imagine a Plastic free world.

The quantum of paper required for packaging needs of the globe is enormous and the world greenery will completely vanish in no time. Similarly, the requirement of Furniture industry and other industries, where Plastics has replaced precious conventional products. Plastic is revolutionary product, which is giving a major economic thrust to the Global economy. However Negative Publicity and Negative marketing have become major threats to this versatile and eco-friendly product.

The increasing consumption of plastic products because of its applications in several end users and the rapid industrialization is increasing the demand for polymers market in India. Also, the expanding sectors such as health, pharmaceuticals and others is one of the factor that is propelling the market. The petrochemical and chemical industry plays a very significant role for the development of economy in a country.

Polymers market is segmented by type, class, source and applications. In terms of number of application and its products polyethylene is dominating the Indian market and followed by that polyvinyl chloride and polypropylene.

The major factor that is increasing the demand for polymers market in India is the financial conditions and favorable macroeconomic conditions. The rural market is one of the growth frontiers for several polymers manufacturing companies in India that provides a huge market to be tapped.

The Indian polymer Compound industry is highly fragmented with a large number of producers. The market for Compounds, cables and wires is mainly dominated by the unorganized sector controlling about 70% of the domestic demand. However, after demonetization, the situation is changing. With the slew of advertising and the publicity campaigns targeted at this segment, companies are getting more and more aware about the quality of products in this category too and making queries before deciding on the purchase of cables and wiring.

During the year The Company has produced 8300 MT of various Grades of Compounds during the year as against the Production of 7337 MT for the year 31st March 2018. Turnover for the year under review was 4708.31 lakhs as compared to Rs. 3503.64 lakhs for the year ended as on 31st March 2018. Profit from Operating Activates for the year for the year 31st March 2019 was Rs. 176.73 Lakhs as compared to Rs. 224.73 Lakhs for the year ended as on 31st March 2018.

INDUSTRIAL STRUCTURE AND DEVELOPMENTS:

The company is manufacturing various compounds of Power cable, Telephone cable and Engineering Plastics. The company has also started production of Black, Color Master Batch and pigments.

OPERATION AND THREATS

The Raw Material price which mainly depends on exchange rate, petroleum Prices and frequent fluctuation affected the probability. Company has discontinued the Production of ST and LT cable due to cut off through competition and optimizes its full capacity into PP and other Compounds. Company has also started the production of colored master batches.

RISK IDENTIFICATION, RISK MITIGATION AND INTERNAL CONTROLS

The Company is manufacturing various Compound of Power Cable, Telephone Cable and Engineering Plastics and Master batches. Its presence in these segments exposes it to various risks which are explained below:

RISK OF COMPETITION AND PRICE PRESSURE

The risk of competition from existing players as well as from new entrants remains high. However, the Company's strength in the market place, coupled with its continuous thrust on improving quality of its products and offering newer products in the Master Batch segment.

The Company supplies Various Compound both on National and International Market. Both Market have their own nuances in terms of customer expectations, competition and pricing. However, the company is well focused on increasing its share in all segments through sound marketing strategy and a balanced approach.

RISK OF FOREX RATE FLUCTUATION AND POLITICAL RISK

Foreign Currency rate are always fluctuating due to changes in various types of market scenario. The adverse growth of Currency may affect the earning of the Company because the Revenue of the Company is coming mostly from Export Market.

To minimize these types of Risks the company has taken various types of Forex facilities like Packing credit, Forward Contract, ECGC policies etc.

Further the Company exports its products mostly in South African countries where Government policies impact a significant influence of their market and the company keeps to close watch on any change occurred.

RISK OF FLUCTUATIONS IN PRICES OF KEY INPUTS

Prices of the key ingredients used in the products manufactured and marketed by the Company remain volatile due to several market factors, including changes in government policies and fluctuations in the foreign exchange rates and the Speculators. However, the Company keeps a close watch on the prices, wherever feasible, to minimize the risk of fluctuations in the input prices.

RISK MANAGEMENT AND INTERNAL CONTROL SYSTEM

The Company has established a well-defined process of risk management, wherein the identification, analysis and assessment of the various risks, measuring of the probable impact of such risks, formulation of risk mitigation strategy and implementation of the same takes place in a structured manner. Though the various risks associated with the business cannot be eliminated completely, all efforts are made to minimize the impact of such risks on the operations of the Company. Necessary internal control systems are also put in place by the Company on various activities across the board to ensure that business operations are directed towards attaining the stated organizational objectives with optimum utilization of the resources. Apart from these internal control procedures, a well-defined and established system of internal audit is in operation to independently review and strengthen these control measures, which is carried out by a reputed firm of Chartered Accountants. The Audit Committee of the Company regularly reviews the reports of the internal auditors and recommends actions for further improvement of the internal controls.

**INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF POLYLINK POLYMERS (INDIA) LIMITED**

REPORT ON THE AUDIT OF THE STANDALONE Ind AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2019

1. Opinion

- A. We have audited the accompanying Standalone Ind AS Financial Statements of Polylink Polymers (India) Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2019, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the Standalone Ind AS Financial Statements").
- B. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Ind AS Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the Standalone Ind AS Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independent requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Ind AS Financial Statements.

3. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Ind AS Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Ind AS Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no matter which is required to be described as key audit matter to be communicated in our report

4. Information Other than the Standalone Ind AS Financial Statements and Auditor's Report Thereon

- A. The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Ind AS Financial Statements and our auditor's report thereon. Our opinion on the standalone Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon .
- B. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is no material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

5. Management's Responsibility for the Standalone Ind AS Financial Statements

A. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

B. In preparing the Standalone Ind AS Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

6. Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

A. Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS Financial Statements.

B. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

i) Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

ii) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

v) Evaluate the overall presentation, structure and content of the Standalone Ind AS Financial Statements, including the disclosures, and whether the Standalone Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation .

- C. Materiality is the magnitude of misstatements in the Standalone Ind AS Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Ind AS Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Ind AS Financial Statements.
- D. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- E. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- F. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

II. Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- A. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- B. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- C. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
- D. In our opinion, the aforesaid standalone Ind AS financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- E. On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act.
- F. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- G. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- H. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- The Company has disclosed the impact of pending litigations on its financial position in its Standalone Ind AS Financial Statements.
 - The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.
 - There has been no delay in transferring amounts, required to be transferred, to the Investor Education

and Protection Fund by the Company.

- As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

**ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON
THE STANDALONE Ind AS FINANCIAL STATEMENTS OF POLYLINK POLYMERS INDIA LIMITED**

**(Referred to in paragraph (II 1F) under 'Report on other Legal and Regulatory
Requirements' of our report of even date)**

**REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3
OF SECTION 143 OF THE COMPANIES ACT, 2013 ("THE ACT")**

We have audited the internal financial controls over financial reporting of Polylink Polymers India Limited ("the Company") as of March 31, 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to Obtain reasonable assurance about whether adequate internal financial controls

over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial Controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India"

PLACE : New Delhi

**Note-"1"****1.1 Corporate information**

Polylink Polymers (India) Limited (the Company) is a Public Limited Company domiciled in India, incorporated under the provisions of Companies Act, 1956. It's shares are listed on Bombay Stock Exchange Limited. The company is leading manufacturer of various compounds for power cable, telephone cable and engineering plastic.

These Financial Statements were authorised for issue in accordance with a resolution of the Board of Directors of the Company in their meeting held on May 27, 2019.

1.2 Basis of preparation

These Financial Statements ('financial statements') have been prepared in accordance Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013 (IND AS compliant Schedule III), to the extent applicable

The financial statements have been prepared on an accrual basis and under the historical cost basis, except for the certain financial assets and financial liabilities which have been measured at fair value as per the requirements of the Ind AS.

The preparation of these financial statements requires the use of certain significant accounting estimates and judgements. It also requires the management to exercise judgement in applying the Company's accounting policies. The areas where estimates are significant to the financial statements, or areas involving a higher degree of judgement or complexity, are disclosed in note 1.4.

All the amounts included in the financial statements are reported in lakhs of Indian Rupees ('Rupees' or 'Rs.'), except per share data and unless stated otherwise and rounded off to nearest lakhs.

1.3 Significant accounting policies**(a) Basis of measurement**

The Financial statements have been prepared under historical cost convention on accrual basis, except for the items that have been measured at fair value as required by relevant Ind AS.

The standalone financial statements are presented in Indian Rupees (₹), which is the Company's functional and presentation currency and All the amounts included in the financial statements are reported in lakhs of Indian Rupees (₹), except per share data and unless stated otherwise and rounded off to nearest lakhs.

(b) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is classified as current when it is:

- i) Expected to be realised or intended to be sold or consumed in normal operating cycle
- ii) Held primarily for the purpose of trading
- iii) Expected to be realised within twelve months after the reporting period, or
- iv) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is classified as current when:

- i) It is expected to be settled in normal operating cycle
- ii) It is held primarily for the purpose of trading
- iii) It is due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(c) Foreign currencies

Financial statements have been presented in Indian Rupees(₹), which is the Company's functional and presentation currency.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date the transaction first qualifies for recognition

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

(d) Revenue recognition

Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have been transferred to the customer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns, allowances, discounts and rebates.

Sale of services

Revenue from job work charges are recognised on percentage completion method on invoicing of services and transfer of goods. Percentage of completion is determined as a proportion of cost incurred to date to the total estimated contract cost.

Export incentives

Merchandise Exports from India Scheme (MEIS) duty credit scrips benefit is recognized on accrual basis at quarterly intervals at the specified rate of the FOB value of exports made during the said quarter.

Interest income

Interest income is recorded using the effective interest rate (EIR) method. EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset.

Rental income

Rental income arising from operating leases is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature.

(e) Income Taxes

The income tax expense comprise of current and deferred income tax.

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income Tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in India.

Current income tax relating to items recognised outside profit and loss is recognised outside profit and loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the Balance sheet and the corresponding tax bases used in the computation of taxable profit and are accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences, and deferred tax assets are generally recognised for all deductible temporary differences, carry forward tax losses and allowances to the extent that it is probable that in future taxable profits will be available to set off such deductible temporary differences. Deferred tax assets and liabilities are measured at the applicable tax rates. Deferred tax assets and deferred tax liabilities are off set, and presented as net.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available against which the temporary differences can be utilized.

Minimum Alternate Tax (MAT)

Minimum Alternative Tax (MAT) is applicable to the Company. Credit of MAT is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the MAT credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the profit and loss account and shown as MAT credit entitlement.

(f) Property, plant and equipment ('PPE')

Property, Plant and Equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the items.

The Assets' residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate. Depreciation on PPE is provided on straight line basis using the rates as specified in Part C of Schedule II of the Companies Act, 2013.

Freehold land is not depreciated.

Property, plant and equipment are eliminated from financial statement, either on disposal or when retired from active use. Losses arising in the case of retirement of property, plant and equipment and gains or losses arising from disposal of property, plant and equipment are recognized in the statement of profit and loss in the year of occurrence.

Expenditure during construction

Expenditure during construction period is being included under capital work-in progress and the same is allocated to Property, Plant & Equipment on completion of installation/construction.

(g) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(h) Impairment of non-financial assets

An asset is considered as impaired when at the date of Balance Sheet there are indications of impairment and the carrying amount of the asset, or where applicable the cash generating unit to which the asset belongs exceeds its recoverable amount (i.e. the higher of the net asset selling price and value in use). The carrying amount is reduced to the recoverable amount and the reduction is recognized as an impairment loss in the Statement of Profit and Loss. The impairment loss recognized in the prior accounting period is reversed if there has been a change in the estimate of recoverable amount. Post impairment, depreciation is provided on the revised carrying value of the impaired asset over its remaining useful life.

**(i) Leases**

The determination of whether an arrangement is a lease is based on whether fulfilment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Company as a lessee

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments.

Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability.

Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

A lease where risks and rewards incidental to ownership of an asset substantially vest with the lessor is classified as operating lease.

Lease rental payments under operating leases are generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease.

(j) Inventories

Inventories are valued at the lower of cost and net realisable value.

Raw materials and stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials and stores and spares is determined on First in first Out (FIFO) basis.

Finished goods are valued at lower of cost and net realizable value. Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost of finished goods includes excise duty, wherever applicable. Cost is determined on a weighted average basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(k) Provisions and Contingencies**Provisions**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each reporting period and are adjusted to reflect the current best estimate.

Contingencies

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events

not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. Information on contingent liability is disclosed in the Notes to the Financial Statements. Contingent assets are not recognized in financial statements but are disclosed, if any.

(l) Employee benefits

All employee benefits payable wholly within twelve months of rendering the services are classified as short term employee benefits, which include benefits like salaries, wages, short term compensated absences, performance incentives, etc. and are recognized as expenses in the period in which the employee renders the related service and measured accordingly.

Defined Contribution Plan

Employee benefits in the form of Provident Fund (with Government Authorities) are considered as defined contribution plan and the contributions are charged to the statement of Profit & Loss of the year when the contributions to the respective funds are due.

Defined Benefit Plan

Retirement benefits in the form of Gratuity and Long term compensated leaves are considered as defined benefit obligations and are provided for on the basis of an actuarial valuation, using the projected unit credit method, as at the date of the Balance Sheet. Other short term absences are provided based on past experience of leave availed. Actuarial Gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income (OCI) in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

All other expenses related to defined benefit plans are recognized in Statement of Profit and Loss as employee benefit expenses.

(m) Financial instruments - initial recognition, subsequent measurement and impairment

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All the financial assets and liabilities are recognized at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss, are added to the fair value on initial recognition.

Subsequent measurement**i) Financial assets carried at amortized cost**

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss.

ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates that are solely payments of principal and interest on principal amount outstanding. Further in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments the subsequent changes in fair value are recognized in other comprehensive income.

iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair value through profit or loss.

**Financial liabilities**

Financial liabilities include long term and short term loan and borrowings, trade and other payables and other eligible current and non-current liabilities.

All financial liabilities recognized initially at fair value and, in the case of loans and borrowing and other payable, net of directly attributable transaction costs. After initial recognition, financial liabilities are classified under one of the following two categories:

i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. The Company has not designated any financial liabilities upon initial measurement recognition at fair value through profit or loss. Financial liabilities at fair value through profit or loss are at each reporting date at fair value with all the changes recognized in the Statement of Profit and Loss.

ii) Financial liabilities measured at amortised cost

After initial recognition, such financial liabilities are subsequently measured at amortized cost by applying the Effective Interest Rate (EIR) method to the gross carrying amount of financial liability. The EIR amortization is included in finance expense in the profit and loss.

De-recognition of financial instruments

The company derecognizes a financial assets when the contractual rights to the cash flows from the financial assets expire or it transfers the financial assets and the transfer qualifies for de-recognition under Ind AS 109. A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires.

(n) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss attributable to equity holder of the Company by the weighted average number of equity shares outstanding during the year. Partly paid equity shares are treated as a fraction of an equity share to the extent that they are entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders of the Company and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

1.4 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

a) Property, plant and equipment

External adviser and internal technical team assessed the useful lives, residual value and fair value of property, plant and equipment as on 1st April 2016. Management believes that the assigned useful lives and residual value are reasonable.

b) Income taxes

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities based on probability that taxable profit will be available against which the deductible temporary differences can be utilized. The Company reviews at each balance sheet date the carrying amount of deferred tax assets and liabilities. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the standalone financial statements.

c) Contingencies

Management judgment is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

**d) Insurance claims**

Insurance claims are recognised when the Company have reasonable certainty of recovery. Subsequently any change in recoverability is provided for.

e) Allowance for uncollectible trade receivables

Trade receivables generally do not carry any interest and are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not to be collectible.

f) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

g) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

Changes in assumptions about these factors could affect the reported fair value of financial instruments.

1.5 Standards issued but not yet effective till March 31,2019

The amendments to the standards are issued, but not yet effective, upto the date of issuance of the financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

The Ministry of Corporate affairs (MCA) has issued the Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, 2019 notified the following standard:

(i) Ind AS 116 - Leases:

Ind AS 116 provides a comprehensive model for the identification of lease arrangements and their treatment in the financial statements for both lessors and lessees. Ind AS116 will supersede the current lease guidance including Ind AS 17 Leases and the related Interpretations when it becomes effective for accounting periods beginning on or after April 01, 2019. The date of initial application of Ind AS 116 for the Company will be April 01, 2019.

The Company is in the process of making an assessment of the impact of IND AS 116 upon initial recognition, which is subject to changes arising from more detailed ongoing analysis. The management cannot provide a reasonable estimate of effects of the application of the Standard as they have not completed their impact assessment as at the reporting date.

36. Employee benefits

A. Defined Contribution Plans - General Description

Provident Fund

The Company makes contribution towards employees' provident fund. Under the schemes, the Company is required to contribute a specified percentage of payroll cost, as specified in the rules of the schemes to these defined contribution schemes.

The Company has contributed the following amounts to:

Particulars	(₹ in Lakhs)	
	March 31, 2019	March 31, 2018
Employers contribution to Provident fund (including Employee's Pension Scheme 1995)	11.35	11.12
Total	11.35	11.12

* net of Rs. 1.03 lakhs (31st March 2018: Rs. NIL) received under PMRPY scheme.

**B. Defined Benefit Plans - General Description****Gratuity (Funded with L.I.C as group gratuity policy):**

The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the Act, employees who have completed five years of service are entitled to specific benefit. The level of benefit provided depends on the member's length of service and salary retirement age. The employee is entitled to a benefit equivalent to 15 days salary last drawn for each completed year of service with part thereof in excess of six months. The same is payable on termination of service or retirement or death whichever is earlier.

The present value of the obligation under such defined benefit plan is determined based on an actuarial valuation as at the reporting date using the projected unit credit method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligations are measured at the present value of the estimated future cash flows. The discount rate used for determining the present value of the obligation under defined benefit plans is based on the market yields on Government bonds as at the date of actuarial valuation. Actuarial gains and losses (net of tax) are recognised immediately in the Other Comprehensive Income (OCI).

37. Lease

The Company has entered into Operating lease agreement for office premises and the same is cancellable in nature with a price escalation clause. Lease rent recognized in the Statement of Profit and loss for the year ended 31st March 2019 in respect of operating lease is Rs. 7.29 lakhs (31st March 2018: Rs. 6.00 lakhs).

38. Fair value measurements

Set out below, the class of the carrying amounts and fair value of the Company's financial instruments:

	Carrying values		Fair values	
	As at March 31, 2019	As at March 31, 2018	As at April 01, 2019	As at March 31, 2018
	(₹ in Lakhs)			
Financial assets				
A. Amortised Cost :				
(i) Trade receivables	851.18	644.93	851.18	644.93
(ii) Cash and cash equivalents	14.07	18.79	14.07	18.79
(iii) Other bank balances	2.78	42.35	2.78	42.35
(iv) Loans	0.75	0.23	0.75	0.23
(iv) Other financial assets	24.39	31.78	24.39	31.78
	893.17	738.08	893.17	738.08

Fair Value of Financial Liabilities:

	Carrying values		Fair values	
	As at March 31, 2019	As at March 31, 2018	As at April 01, 2019	As at March 31, 2018
	(₹ in Lakhs)			
Financial assets				
A. Amortised Cost :				
(i) Non current Borrowings	-	15.27	-	15.27
(ii) Current Borrowings	297.75	242.19	297.75	242.19
(iii) Trade payables	228.62	222.39	228.62	222.39
(iv) Other financial liabilities	26.94	19.85	26.94	19.85
	553.31	499.70	553.31	499.70

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

**The following methods and assumptions were used to estimate the fair values :-**

- 1) Fair valuation of trade receivables, Cash and cash equivalents, other bank balances, loans & advances, trade payables and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.
- 2) Fair value of borrowings from banks, are estimated by discounting future cash flows using rates currently available for debt on similar terms and remaining maturities.
- 3) Fair value of security deposit received is computed using the present value technique with inputs that include future cash flows and discount rates that reflect assumptions that market participants would apply in pricing the financial instrument.
- 4) Fair value of security deposits given approximates the carrying value and hence, the valuation technique and inputs have not been given.

Fair value hierarchy

All financial instruments for which fair value is measured in the financial statements are categorised within the fair value hierarchy, described as follows:-

Level 1: This level of hierarchy includes financial assets that are measured by reference to quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: This level of hierarchy includes financial assets that are measured using inputs, other than quoted prices included within level 1, that are observable for such items, directly or indirectly.

Level 3: This level of hierarchy includes items measured using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instruments nor based on available market data.

* Management has assessed that trade receivables, Cash and cash equivalents, other bank balances, loans & advances, trade payables and other current financial assets and liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

39. Financial risk management objectives and policies

The Company's principal financial liabilities comprise of borrowings from banks, trade payables and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include trade and other receivables, other bank balances and cash and cash equivalent that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is responsible to ensure that Company's financial risk activities which are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market price. Market risk comprise of interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk.

The sensitivity analysis in the following sections relate to the position as at March 31, 2019 and March 31, 2018.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on borrowings, as follows:

(₹ in Lakhs)

	Increase/decrease in basis points	Effect on profit before tax
March 31, 2019	+0.5	(1.49)
	-0.5	1.49
March 31, 2018	+0.5	(1.31)
	-0.5	1.31

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment

(b) Foreign currency risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions primarily with respect to USD. Foreign exchange risk arises from future commercial transactions and recognised asset and liabilities denominated in a currency that is not the Company's functional currency. The Company imports raw materials and exports finished goods which exposes it to foreign currency risk. The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities.

(₹ in Lakhs)

	Increase/decrease in basis points	Effect on profit before tax
March 31, 2019	+2%	3.54
	-2%	(3.54)
March 31, 2018	+2%	1.36
	-2%	(1.36)

Commodity price risk

The Company is affected by the price volatility of certain commodities. Its operating activities require the purchase of raw material therefore, requires a continuous supply of certain raw materials. To mitigate the commodity price risk, the Company has an approved supplier base to get competitive prices for the commodities and to assess the market to manage the cost without any compromise on quality.

Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks. Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount.

Trade receivables

Trade receivables are subject to credit limits, controls and approval processes. Basis the historical experience, the risk of default in case of trade receivable is low. Provision is made for doubtful receivables on individual basis depending on the customer ageing, customer category, specific credit circumstances and the historical experience of the Company.

Based on the historical data, loss on collection of receivable is not material hence no additional provision considered.

The ageing of trade receivables at the reporting date was:

Liquidity risk

The Company monitors its risk of a shortage of funds doing a liquidity planning exercise. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of short term borrowing facilities like export packing credit and cash credit facility. The Company's treasury function reviews the liquidity position on an ongoing basis. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Company has access to a sufficient variety of sources of funding and surplus cash and cash equivalent on the basis of expected cash flow. The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payment :

40. Capital Risk Management

The Company's policy is to maintain an adequate capital base so as to maintain creditor and market confidence and to sustain future development. Capital includes issued capital and all other equity reserves attributable to equity holders. The primary objective of the Company's capital management is to maintain an optimal structure so as to maximize the shareholder's value. In order to strengthen the capital base, the company may use appropriate means to enhance or reduce capital, as the case may be.

The Company is not subject to any external imposed capital requirement. The company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.
